

OBAN

OBAN STEEL CT-SERIES IRON SHAFTS

OBAN STEEL

ENJOY THE FLIGHT

Made in Japan, OBAN's CT Iron Series' constant weight, taper tip design is meticulously manufactured to exacting specifications and tolerances. Cold extrusion, combined with the purity of Japanese steel, renders a seamless responsive shaft that mitigates vibration and delivers a uniquely smooth swing sensation. The Tour inspired innovative structure features a micro-taper step pattern and distinctive Japanese chromium finish.

STRUCTURE

JAPANESE STEEL. SEAMLESS CONSTRUCTION.
EXACTING TOLERANCES.

DESIGN INNOVATION

WEIGHT, FLEX, BALANCE AND BEND PROFILE
DYNAMICALLY SYNCHRONIZED.

CREATIVE EXPERTISE

ABILITY TO PRECISION-ALIGN WEIGHT AND FLEX
TO A PLAYER'S UNIQUE PROFILE.

PERFORMANCE

GREAT FEEL. TIGHT DISPERSION.

HOLOGRAPHIC LABEL

DEVELOPED BY TOKYO-BASED KATANI CO LTD.
DIMENSIONALLY ENGINEERED FOR DURABILITY.

OBAN CT-SERIES

SPECIFICATIONS

OBAN STEEL CT-100

MID-HIGH Launch | LOW-MID Spin

- Lightweight Japanese steel
- Smooth profile controls spin and optimizes trajectory
- Firm tip section tightens landing pattern

MEDIUM Tempo | SMOOTH-MED Load | SLOW-MED Transition

OBAN STEEL CT-115

MID-HIGH Launch | LOW-MID Spin

- Mid-weight Japanese steel
- Solid impact for increased ball speed / distance
- Responsive and repeatable design profile

MEDIUM Tempo | MEDIUM Load | MEDIUM Transition

OBAN STEEL CT-125

MID-HIGH Launch | LOW-MID Spin

- Heavy weight Japanese steel
- Stable profile for faster swing speeds
- Responsive and repeatable design profile

MED-FAST Tempo | MED-STRONG Load | MED-FAST Transition

OBAN CT-SERIES
